Food Service Walk Ramp Headquarters - 7000 XT Ramp

Steel bottom end has integrated handles for ease of deployment/storage.

LWH 2614 AH

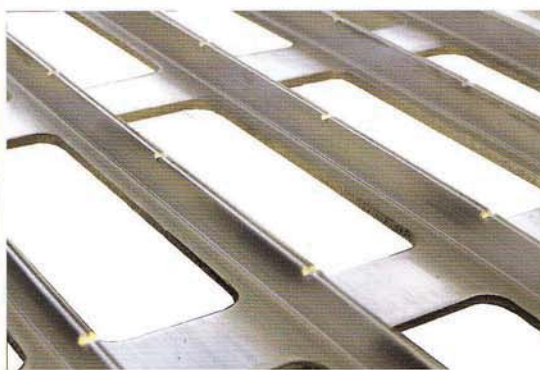

26" W x 14' L apron end, 2 hooks

Side rails are made from **7000** series aluminum. **20%** stronger! 54,000 lbs tensile strength vs 45,000 lbs for standard 6000 series rails. Lightweight and high capacity (1,000 lbs for 14')

New deck design provides **X**tra **T**raction. Won't collect ice, mud, snow or debris.

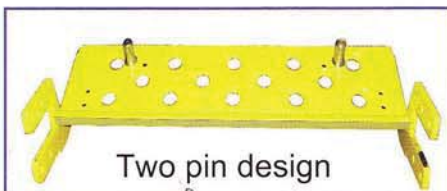

Rollers on the underside of the ramp at both ends allow for easy sliding of the ramp out of carriers. Ramps fit most carriers.

Modular design with stainless steel fasteners won't corrode. Allows for easy repair of damaged components.

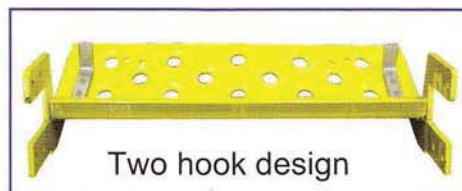

Close up of decking showing our exclusive "V" notch design. Provides superior traction.

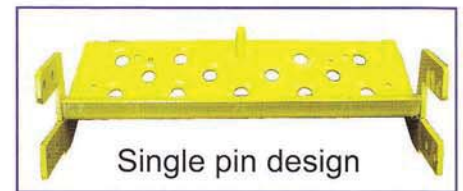

New end design design features two "forks" that lock the end to the rails for superior strength. Holes are raised for excellent traction and resistance to build up of debris. Available in two hooks, two pins and our exclusive single pin design. The ramp can pivot from the back of the trailer, allowing access to tight delivery locations.

Two pin design

Two hook design

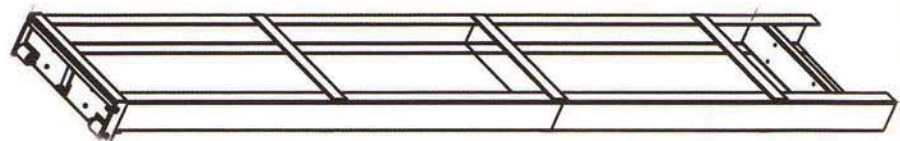

Single pin design

RAMP CARRIER SYSTEMS

Open or closed designs. Can be installed OEM or retrofit. Exclusive door system stays closed. No need for bungee cords. End rollers allow smooth ramp deployment/storage. Available in various widths and lengths to accommodate different applications.

Two Year Warranty.

C26160
